VOLUME 37

FRIDAY MAY 19th 1944

NUMBER 2

Swimming Pool To Be Brightened Up

At Rotary meeting on Monday Gordon Roberts spoke a few minutes and answered a great many questions about life in the navy and the work he does as shipwright. He said he had enjoyed his training and thought it would be a good thing for any young fellow. He is anxious, now his course is finished to get a ship and get out to sea.

Welburn VanOrman spoke briefly on the meeting he had attended in Edmonton Saturday on Physical Fitness and the program the Province was going to suggest to the Dominion body. He also said that J. H. Ross, Provincial Committee Chairman was going to bring the Dominion Supervisor to Raymond in the near future to see what had been provided in a recreational centre in the Opera House, as Mr. Ross felt this was a real contribution to the future training and preparedness of youth.

C. R. Wing, Chairman of the Community Service Committee felt something should be done at the Swimming Pool before swimming started, and he was asked to check it over and report back to the Club with recommendations of what should be done. Suggestions were made that the sides of the Pool be smoothed up, the filter cleaned and enlarged, and the building and fence painted again.

AIR CADET FLASHES

Few bombs fell on Berlin from the Courageous Vets' and the 'Daring Next of Kin' in Monday night's raid. The 16 cadets from 110 Raymond Squadron, who manned the Bombers did their flying in the H.I. School Aircraft Recognition room. Some of the gunners might have brought down more German planes according to Instructor John Landysheff, and will when they get used to atmospheric conditions over "Europe." The 'Daring Next of Kin' beat the crew of the 'Courageous Vets' by a 30 to 19.

The local Veterans' Association have generally donated prizes to be awarded to the winners in this Aircraft Recognition room.

Lucy Linton's Stories

A sense of humor, friendliness, grown up to be a popular and successful radio m.c., an announcer and actor of considerable handsomeness, Muriel Ball together with the success of her first serial, 'Lucy Linton' (10:45 a.m. Monday to Friday) Jack continued her interest in the was born in Detroit, Michigan, theatre and radio. i two months after the outbreak for one hour and a quarter. of the First World War. Toronto. Similarly, just so long as the to-born Muriel Ball watched her Canadian invasion forces are handsome bridegroom march playing their part on European away to battle a year later. so we must do ours here. We Since then young Mr. Fuller has

CHEESE FACTORY DIRECTORS MEET

Regular meeting of the Cheese Factory Directors was held last Friday evening in the Treasury Branch. Problems and progress in the operation of the plant were discussed.

Estimates were on hand for the enlargement of the locker storage department and the Manager reported that he was turning down applications nearly every day for lockers, but had none to rent. It was decided to increase the number of lockers, by 150, instal and equip a curing and pickling room, and equip this addition with compressors large enough to permit of further additions of lockers when needed.

The Secretary, F. E. Jensen, and Manager A. E. Hancock had just returned from the annual meeting of the operators of Locker Storage in Alberta, and they said there was an ever increasing demand for lockers on the part of the public and they doubted very much if even the contemplated addition of 150 boxes would be enough. A drive for 250 shares is to be made to finance this addition.

The egg situation was discussed at some length. Every item suggested by the Dominion Inspector had been met with now so that we could operate our egg grading room independently, and market our own eggs. The meeting felt that if we could market our eggs independently, that a better price could be paid the egg producers and a better margin realized by the Co-op. A motion was passed that the present contract with Poultry Producers to terminate at the end of sixty days and that we arrange to market our own eggs.

contest. 110 Raymond Squadron will have their annual inspection on the afternoon of June 13. The public are invited.

Sunday at 9 hours the Squadron will proceed to Lethbridge for a Church parade. At 10:15 hours all cadets will fall in at prizes to be awarded to the High School for a Church winners in this Aircraft Recognition room.

Finance Committee Formed

An enthusiastic meeting of the Board of Trade was held Wednesday night to receive the report of the Committee appointed at the last meeting to bring in suggestions for the raising of money to assist in the furniture, floor coverings etc., for our new hospital. After the report was presented it was taken item by item and discussed, some all oments being raised and others lowered. The aggregate of all oments when discussion was ended amounted to a little over \$12,000.00.

Then the question of a committee for raising the money was discussed and the following were named Chairman for the following groups to choose their own help:

Japanese Groups—J. W. Evans. Hungarians, Czecho and Yugo Slav groups—Frank Taylor.

First Ward—Bishop Hicken. Second Ward—Bishop Palmer. Hutterite Colonies—J.D. Hall. Service Clubs and Athletic Association—J. G. Snow and Dr. Madill.

Stampede Committee—L. D. King.

War Bond Sales Committee—Jas. H. Walker.

Catholic Church—P. W. Cope. United Church—J. D. Hall.

Women's Institute—Mrs. W. W. McMullin.

Welling Ward—Bishop Wilde. Stirling Ward—Bishop Erickson.

Public School—Principal J. O. Hicken.

High School—Principal L. H. Jacobs.

Canadian Legion—E. H. Wagstaffe.

Factory Credit Union—C. O. Nalder.

Raymond Credit Union—Ger. ald J. Gibb.

Federal Labor Union—W. S. VanOrman.

Then there are elevator companies, oil companies, and several other corporations that will be contacted directly by letter to be arranged by the Board of Trade Executive.

No requests are planned in this drive on business houses up and down the street as some have already intimated their intention of either furnishing a room or donating toward one, and any such will have full opportunity of assisting in this respect.

The meeting was representative of the Town, it was full of enthusiasm, and everyone felt that in the equipping of our Hospital for more and better service, the community would be really doing a fine job for everyone concerned and for future generations.

Ted Wagstaffe was present and asked the support of the Board of Trade in the erection of the Honor Roll on the Town Hall corner, and a motion carried unanimously that the Board assume its share of the cost. Meeting adjourned at 11 p.m.

Rain Is Badly Needed

Crop conditions would be ing the rows before seeding, about 100 p.c. good if we had and many beet growers are irrigating their fields to induce growth so that the stand will come up for cultivating.

Alfalfa fields and pastures are being watered and are coming along alright. The question in this respect is how much water there will be for the late sowing and fall unless we have heavy rains the latter part of May and June. The condition is not desperate as yet, but there is genuine concern about the moisture situation.

The worry on every hand right now is the moisture condition. The winter was dry and we have had no spring storms to amount to anything and things are really dry. Gardeners doing their planting are soaked about the moisture situation.

NEWS NOTES

Jensen Bros. are just completing a very nice home on their farm north of town. The outside is finished and interior work is in progress now.

Misses Iris Jones and Sara King are in the Vanity Beauty Shoppe again after a two weeks vacation on the Pacific Coast. They report a most enjoyable vacation.

After a brief visit at home Shipwright Gordon Roberts returned on Monday to Lethbridge to take the train for his training quarters. He has just completed a course at Cornwallis, N. S.

When the frigate "Vallerfield" was torpedoed and sank on convoy duty in the North Atlantic last week, one Lethbridge seaman, Petty Officer John Emilie Blochinger was listed amongst the missing. The boat sank a few minutes after the torpedo struck and 121 men of all ratings are reported missing.

Geo. Brewerton is home after his two weeks vacation in Vancouver.

Born to Mr. and Mrs. Wm. Warford on Friday, May 12th a baby boy. Mother and son are doing fine.

Mr. Wright of Calgary and other members of the Alberta Poultry Producers Executive were Raymond visitors Tuesday at the Raymond Co-op.

Very enjoyable Mother's Day programs were held in both Raymond wards on Sunday. Out lined by the General Sunday School Board the theme was "Mother lies at the foundation of happiness in the home and prosperity of the Nation." Exercises from the earliest classes with short talks on Mother featured the programs, and plants of flowers were distributed to Mothers present and sent to those unable to attend. Good crowds were present in both wards there being 498 in attendance in the Second Ward.

Local Lions Hold Nomination Meeting

The regular meeting of the Lions Roar. Ed. Rine was introduced as a guest by Lion Ira McIbide. Mr. Rine represents Robinson Little Dry Goods Firm.

A letter was read from the local Rotary Club complimenting the Lions on the work they were doing at the Memorial Park offering any assistance they could on this project.

Lion Karl Wilde and his committee were complimented on the work they had done at the Park Grounds.

Pres. Golden Snow announced the new members would be initiated at the Lions Convention in Lethbridge in June.

Lion J. Harker who has been a member of the Magrath and Taber Clubs has now joined the local Club and gave a short talk on Lionism.

Lion Tamer M. T. King led the members in community singing.

Lions J. Evans, Mutt Ralph, Ira McIbide, J. MacLean and Karl Wilde were nominated for President and after the primary vote had taken place Lions Jack Evans and Mutt Ralph were left to contest the President's Chair at the next meeting.

Lions J. MacLean, Karl Wilde, Bryan Baker, V. Heggie, J. Kenny were nominated for 1st Vice Pres. Karl Wilde and Joe MacLean were the two left to run for this position.

T. Allan, Geo. Ralph, M. C. Hansen B. Sandford, Don Wilde and Roscoe Baker were nominated for 2nd Vice Pres. Roscoe Baker and T. Allan winning on this occasion.

J. McIbide, J. Strong, and Geo. Ralph were nominated for 3rd Vice Pres. The winners being Strong and Wilde.

M. C. Hansen then lived up to the election with a description of an Italian at his first Base ball game.

Lion Dean Rolfsen was elected Secretary for another year by acclamation.

Ira, McBride and J. L. Evans were nominated to contest the Lion Tamer's office.

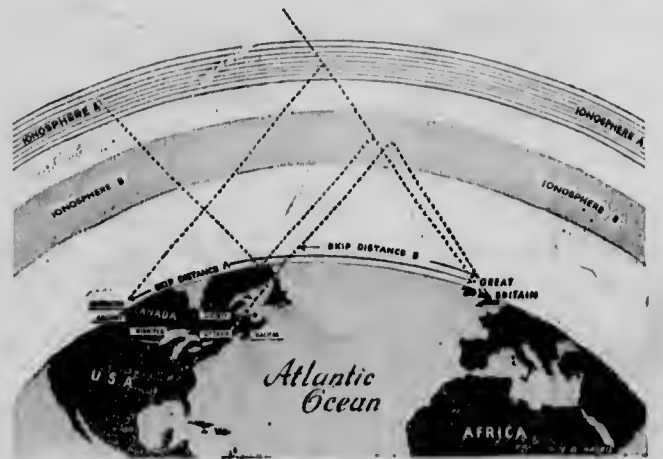

Herb Wilde and M. T. King will run for Tail Twister.

Bryan Baker, Jim Harker, J. Kenny, Wm. Wilde, V. Heggie were nominated to run as directors, 2 to be elected at the next meeting.

Next Wednesday will be the first Soft Ball practice for the Club.

The meeting closed by singing "Godd Save the King."

How the BBC Shortwaves Get to Canada

The illustration symbolizes ionosphere are among the chief graphically the mysterious causes of poor overseas reception, or Heavyside lay ion. New CBC shortwave receiver, at two different heights, and receiving stations at Dartmouth, the course taken by shortwaves N. S., and Hornby, Ont., are on their way from Britain to Canada. Irregularities in the reception considerably.

Stamp Out Hitler with War Savings Stamps!

Canadian Pacific Employees Buy for Victory

TO FIVE previous investments in victory and post-war security, May Webster, an employee in the office of the secretary of the Canadian Pacific Railway Company, Montreal, has added a Sixth Victory Loan. Mrs. Webster is pictured here handing her subscription pledge to W. L. Wright, chief clerk in the office of the

secretary of the company. Mrs. Webster is representative of thousands of patriotic Canadians, Canadian Pacific Railway employees among them, who have all their Victory bond purchases, dating from the first loan, in June, 1941, to the present, carefully stowed away until a complete Allied victory will have written this to the war.

Mrs. Webster became an employee of the Canadian Pacific when she replaced her husband who has been on active service with the Black Watch, Royal Highlanders of Canada for two years. Private Webster is now serving overseas. The Websters have a four-year old son.

Mrs. F. G. Summers went to Lethbridge Monday where she will enter hospital for a couple of weeks treatment. Percy Murdock, Manager of Alberta Poultry Producers in Lethbridge was a Raymond visitor Saturday.

Mr. and Mrs. Mose Fromm were visitors Monday at the Moroni Herget home in Stirling.

RADIO REPORTER
STANLEY MAXTED

Veteran and hero of the First World War and almost continuously engaged in broadcasting throughout Britain during the World War II, Stanley Maxted puts as much enthusiasm into his job of BBC commentator as he did in his early radio career as a tenor star. He is heard, Off the Record, Tuesdays at 11:15 p.m. CDT.

NEWS NOTES

Mr. and Mrs. Mose Fromm were Magrath visitors Sunday with the family of Mrs. Fromm.

May 24th is a Statutory holiday and we understand that offices and stores in most South ern Alberta towns will be closed for the day.

Raymond

S. James Weaver was home Monday and part of Tuesday on leave from No. 8 B & G.

John Lawson of the Lethbridge Herald Job Department was a visitor at the Recorder on Wednesday of this week.

Mrs. A. D. Woolley is home for the summer after spending the winter in New York with her son Wayne. She reports a very pleasant winter and Wayne is feeling fine.

Elder Cyril Layne returned home Monday last after three and a half months Missionary labor in the Western Canadian Mission and says he would like to go back again for another six months. He looks fine and has labored in nearly all the Conferences in the mission while away.

Elder Alma Sommerfelt was the speaker in the 2nd ward Sunday evening and gave a very interesting talk on "Mother." Miss Jeannine Wilde and Jos. MacLean sang vocal solos, and the Bee Hive Girls and Gleaner Girls each rendered a number to make a very enjoyable program.

The First Ward Bishopric were speakers at the meeting in that ward last Sunday evening on Mother's Day. It was exactly eight years since they had been sustained in office, and four years since the first meeting in the new house of worship and they sort of made an anniversary of it. A large crowd was in attendance and a very interesting meeting was held.

THANK YOU GOD

Here in a moment of quiet taken from the work I have to do, I search for words to give you thanks.

Thanks that here in the shadow of death the strength is given to fight to end the things I've seen.

The children crying and slinking away to hide, like some beaten broken thing, their eyes tense and afraid with the fear that tyranny has planted there.

The men with nothing left of life but the thread of hope that freedom may come some day to bless their children, if not themselves.

The women barefoot, worn, driven like cattle in the fields deserted, violated but strong, because they have the vision of a coming light that may shine for them.

I have known another world far removed from this where men are free.

Where the eyes of children are shining pools of laughter, where the women live in decency and where the blessings of your hand have guided those who fought & dreamed and built.

We do not know when death may come or who among us will return.

But there can be no turning back, no faltering in the task it is our will, and yours, to do.

And for the land and people that are ours for the courage that flows with freedom in our blood, for the strength to fight to end these things I've seen.

Thank you for the teachings I've had, for my parents, brothers and sisters and friends.

Thank you God Thank you.

...IN ONE EASY LESSON

In wartime, more people are working and there is more money to spend but half of what is made is for war

so consumers can't get all they want and people will bid more for what is available so prices go up...

and workers need higher wages costs of production go up and producers and dealers need higher prices

and the vicious spiral of inflation gets started but wages and salaries don't catch up with living costs the spiral grows — and the sky is the limit

money buys less and less hardship and confusion sweep over factory, farm and home

So: To Protect Us All from the Rising Cost of Living and the Disaster of Inflation

a ceiling is set on prices wages and salaries are controlled to prevent higher production costs from pushing up the ceiling and excess profits are taxed away

and individual incomes are taxed more heavily Victory Loans are launched to pay the costs of war

supplies are divided fairly among producers and merchants rationing is introduced to ensure a fair share to everyone at prices within the reach of everybody

and nobody is permitted to take advantage of the war to get more than his share while the boys are out there fighting

(This advertisement is one of a series being issued by the Government of Canada to emphasize the importance of preventing a further increase in the cost of living now and deflation later)

WEEKLY LETTER

HOW ARE YOUR LICE AND MITES?

Were you ever in the unenviable position of being infested with lice. If so you can readily understand how poultry must feel when they are infested. If you yourself have escaped that doesn't guarantee that your poultry have. Why not make sure that they are free from these pests, that they are comfortable and in position to really produce to the maximum of their ability.

Many years ago it was quite a chore to control poultry lice but research men have evolved a very simple and effective treatment. It is reasonably cheap and there is no reason why any poultry should suffer the drain on vitality and production that lice can cause. The treatment recommended is to paint the roosts with nicotine sulphate just before the birds retire to rest. The body heat generates fumes from the nicotine sulphate and these kill the lice. A repeat treatment ten to twelve days later is necessary to destroy newly hatched lice as the fumes do not kill eggs that may be present.

There are three different types of mites that attack poultry but as treatment is slightly different for each one it is not possible to discuss this in detail. Suffice it to say that the summer months are the ideal period for these insects to reproduce and all houses should be thoroughly examined for them. They cause immeasurable damage in poultry flocks, and any poultry producer who is not familiar with their control would do well to write to the Dominion Experimental Station, Lethbridge, for a publication dealing with this subject.

Mr. and Mrs. Wilford Shields and Mr. and Mrs. Geo. Terry spent Wednesday of this week at the Cardston Temple.

Even with the increase in the objective, the Sixth Victory Loan went over the top by \$92, 105,000 when the drive ended Saturday night, and officials expressed the idea that when all reports were in the total would be close to \$1,400,000,000. Congratulations Canada and Canadians on such a fine record. More individual purchasers than in any previous loan but bonds during the drive.

FARMER MEETINGS SOURCE OF VALUABLE INFORMATION

A great deal of interest is being evinced by farmers throughout the Dominion in the Farm Meetings sponsored by McColl-Fontenac Oil Company Limited, some hundreds of which are being held the Dominion over as part of the Company's service to the Canadian farmer. Doubtless many of our readers have had an opportunity of attending one of these Farm Meetings as they have already been held in many sections of the country.

In those districts where meetings have yet to be held, we would strongly advocate that when one is scheduled in your section you make it a point of attending. For, not only can you look forward to being entertained but you will decidedly come away with a great deal of added knowledge of the latest and most scientific methods of getting more work out of your farm equipment and making it last through proper lubrication.

Of decided interest is a technical motion picture entitled "Tale of Two Thieves," the "thieves" incidentally, being Rust and Wear. This picture vividly illustrates how the ravages of rust and wear shorten the life and cut down the efficiency of farm equipment, and shows the logical ways of overcoming and preventing these conditions.

One thing that is definitely brought home, is the foolhardy farm programme, McColl-Fontenac on one grease or lubricant to do a "jack-of-all-trades" job.

This picture is indeed a revelation of how essential correct lubrication is to today's modern farm equipment. It is a picture that no power farmer can really afford to miss.

As part of this educational farm programme, McColl-Fontenac Oil Company Limited make available at these Farm Meetings or upon personal request to any of their farm district representatives or Red Indian Dealers, in farm areas, such valuable aids to proper lubrication as Tractor Lubrication Millian, "can be discharged on-ly if every piece of usable farm equipment is kept in constant top-notch condition and that it is his Company's objective, as far as essential lubrication is concerned, to do everything possible to help the farmer discharge his obligation."

STRAW HATS

Men, Women and Children
for Dress & Work Wear
BREWERTON'S

In addition a series of Bulletins are available giving timely hints and advice on a host of subjects and petroleum products designed to help the farmer in his business.

Of more than especial interest, is a splendid farm manual entitled "Harvest Gold" which, in its 130 pages, is to be found a digest of the best farm machinery service information available. Of such value is this comprehensive brochure that it has become a standard reference in many Agricultural Schools and Colleges.

In the words of Mr. E. McMillan of the Marketing Division of this Company, "The Canadian Farmer has a great responsibility in seeing that food production in Canada is maintained, not only for the immediate needs of the United Nations and the Home Front and the starving millions in Europe, but for the feeding of still more countless thousands when the war has been won." "This responsibility" continues Mr. Mc-

PILLS FOR POWER

In a recent announcement from the Aero Engineering Co. Tramways Building, Montreal, there seems to be a gleam of hope for Canadian motorists who can't seem to make their gas rations come out even with their actual driving needs. The company is marketing a gasoline additive under the trade name "Vitaplus". According to its literature, these tablets, which are dropped in the gas tank in the ratio of one to a gallon, perform the functions dissolving sludge deposits, freeing pistons while adding to the combustion quality of standard octane gasoline. On test, mile-

age has jumped as high as 39 p.c. and ordinary running is demonstrating increases of 20 p.c. to 25 p.c. This material has been in wide use in the United States for some time now, where it has, according to all reports, definitely proven its claims. In Canada it has been tested by McGill University and has been licensed for sale by the Motor Vehicle Department.

The Company's faith in "Vitaplus" is demonstrated by the fact that users are protected against any possible damage by a half million dollar policy issued by the Hartford Accident & Indemnity Co.

20,000

**TONS OF WASTE PAPER ARE NEEDED
EVERY MONTH FOR MAKING
ESSENTIAL WAR MATERIAL**

● The need is desperate! To help Canada meet the critical shortage, not a scrap of wanted paper should be burned or thrown away!

WHAT IS WANTED

You can remedy this critical paper shortage by saving every scrap of Waste Paper, namely: wrapping paper—store bags—cardboard—cartons—corrugated board—old magazines and books—envelopes and letters—news-papers. These represent the raw material for making vitally needed Paper containers.

HOW TO DO IT

Tie securely in separate bundles. (The little time you take will save thousands of man hours.) Then dispose of

it through your local voluntary Salvage Committee or other War Voluntary Organization, or sell it through any known trade channels, your pedlar, dealers or others. The important thing is to get your Waste Paper moving to the mills.

Do Your Part! Salvage every Scrap of Paper you can!

Plowman's Wisdom

Now that the smoke raised by E. H. Faulkner's book, "Plowman's Folly," has cleared away, we are left wondering what remains. Presumably most of our readers have heard of the book which, in the words of its author, "sets out to show that the mouldboard plow is the least satisfactory implement for the preparation of land for the production of crops." Tons of paper have been used for the publication of more or less controversial discussion of this subject and we don't propose to use more.

The Canadian farmer is shrewd, and is not likely to change his tillage methods until convinced of the wisdom of doing so. It is estimated that 150 million acres of land will be plowed in the United States this year and, as usual, the mouldboard plow is at work on the Canadian prairies. True, there are highly productive fields in Southern Alberta that have not been plowed for a quarter of a century. But in other parts of the prairies, the mouldboard plow is considered indispensable. The plowless fallow with strip farming, is very effective in the control of soil drifting, especially in some districts, if tillage operations are carried out efficiently and at the proper time. It does not follow that this practice should be adopted universally.

The prairie plowman's wisdom is beyond question because he selects his tillage methods in the light of his own and his neighbours' experience plus advice from those whose duty it is to examine and to test methods which have succeeded elsewhere.

MAINTAIN PRODUCTION

The food needs of Canada and her Allies require maximum agricultural production.

The Alberta Pacific Grain Co. (1943) Ltd.

A FULL COAL BIN NOW

is your best safeguard!

Protect your family
by ordering
next winter's coal TODAY!

The past winter was unusually mild. Next winter may be severe. You can't depend on the weather. But you can depend on a warm home by ordering your coal now and by taking it when your dealer is able to make delivery. So don't delay. Order today!

TAKE ADVANTAGE OF THE SOLID FUEL CREDIT PLAN

To encourage early buying, the Government-sponsored Solid Fuel Credit Plan has again been arranged for your convenience. You can buy now . . . on a monthly payment basis. Ask your dealer or banker for details.
